

INFLECTS OPPRESSIVE TREATMENT ON CONSUL

NEWSMEN SAY VILLA COMPELLED BRITAIN TO CARRY DEMAND

Also Bring Reports of Rebel Defeat
at San Pedro and That Velasco
Succeeded in Joining General Hildago
at Saltillo.

El Paso, April 9.—Reports of oppressive treatment inflicted by General Villa on H. S. Cummins, acting British vice-consul at Torreon, of the defeat of a rebel column sent against San Pedro and that the federal general Velasco, had succeeded in joining General Hildago at Saltillo, where they have a joint command of twelve or thirteen thousand men, were brought here today by two newspaper correspondents from Torreon. Hildago, they said, was trying to reach Torreon with reinforcements when Velasco evacuated that city.

The correspondents said that while the sending of news from the front was not entirely prohibited, it was censored so severely as to be all but worthless. Villa, they said, compelled Mr. Cummins to sign a demand for the surrender of Torreon to General Velasco, the trip being made under protest and during which Mr. Cummins was fired upon.

George C. Carothers, special agent of the state department at the battle in the report of the incident that he has made to Washington, however, does not indicate that Mr. Cummins was coerced into becoming General Villa's messenger, but states that he did so with some reluctance after first refusing.

Carothers' Report of Incident

The report of Mr. Carothers to the state department follows: "At 4 p. m., (March 27), General Villa sent a messenger to see Cummins requesting him to go to headquarters. I and H. W. Potter accompanied him. When we arrived, after introducing Cummins to Villa, Villa said to him that he, Cummins, was an enemy to the constitutional cause, that he had information that Cummins was accustomed to banqueting with the federalists, that he knew he was a friend of General Velasco that in view of this friendship, he wanted Cummins to take a communication to Velasco in which he demanded the surrender of the city to avoid further bloodshed. Villa said the message was couched in terms usual in warfare in such cases. Cummins refused to take the message, arguing that he was neutral and should not mix in political affairs of the country. At this Villa became very angry and said we foreigners were demanding that he protect foreigners and be a surnatarian in his acts and at every opportunity to us to do some good we refused. He commenced to talk about probably having to fight all of us when I intervened and advised Cummins to go. "Villa said he first thought of sending the message by me, but on second thought had decided on Cummins on account of his friendship with Velasco as he would be in no danger. Cummins agreed to go, so I wrote some instructions to Mr. Ulmer. Cummins left about 5 o'clock and was to return about noon next day. The interview with Villa had a most serious aspect for a few moments, but as it turned out Villa and he shook hands, called each other 'amigos' and parted in the best of spirits."

Mr. Ulmer mentioned in the report is I. M. Ulmer, United States consular agent at Torreon.

Says They Parted Friends.

Mr. Carothers when seen by a reporter here today amplified his report to the state department as follows: "Just before leaving Villa's headquarters, Villa called Cummins 'amigo.' Cummins turned to Villa and said: 'You call me friend?' 'Yes, I call you friend because I want you for my friend,' responded Villa. Villa's last word to us was that he left all arrangements about getting a visa to us."

"I then walked toward Mr. O'Hea's house with Cummins, but left him before reaching there in order to get a hand car. I saw Cummins enter O'Hea's house. A half hour later I met Cummins coming from O'Hea's house with a British flag and a flag of truce. I had been unable to get a hand car so Cummins said he would go on foot as it was getting late and he did not want to make the trip in the dark. Cummins did not make any complaint to me of coercion then or later. On his return on the 30th he was most cordially received by Villa, who embraced him and thanked him for what he had done."

Mr. O'Hea mentioned by Mr. Carothers, is Patrick O'Hea, recently appointed to succeed Cunard-Cummins as British vice consul.

Cummins had resigned but was still acting as vice consul.

GOVERNOR DUNNE

NAMES DELEGATES

Springfield, Ill., April 9.—Governor Dunne today named the following delegates to the national conference of charities and correction, Memphis, Tenn., May 8, 1915:

Gustav Hockstader, Adlai T. Ewing, Harry D. Dabbs, William S. Templeman, Mrs. Nelson Perry, Mrs. Thomas W. Hinde, Mrs. William D. McJunkin, Mrs. Walter C. Smith, all of Chicago; Roscoe E. Chapman, Rockford; R. E. Hieronymus, Eureka; Mrs. Richard J. Oglesby, Elkhart; Mrs. Henry T. Rainey, Carrollton; Mrs. Stuart Brown, Springfield; Mrs. E. A. Cole, Peoria.

DETECTIVES MAKE FUTILE SEARCH FOR MISSING MINISTER

Absolutely no Trace of Rev. Louis R. Patmont, "Dry" Worker at Westville, Is Found.

Danville, Ill., April 9.—Posses and detectives made a thorough search at Westville and vicinity today, but tonight it was announced that absolutely no trace of the Rev. Louis R. Patmont of Milwaukee, the "dry" worker who disappeared mysteriously March 31st, has been found. The shallow pond near which Patmont was last seen was not dragged. It is very shallow and it was thought impossible for a body to have been concealed in it. Search will be resumed tomorrow in the abandoned coal mines in the neighborhood. Some of them are filled with water hundreds of feet in depth and it will be impossible to find the body if Patmont had been murdered and thrown into one of them. Local officers had grown discouraged by their absence, but they were encouraged by the fact that the "dry" organization are continuing their investigations. It was stated last night that two arrests would be made today, but late tonight none had occurred.

The disappearance of the minister during the recent local option election that resulted in Georgetown township going wet by a large majority, created intense excitement which is not yet allayed in all portions of Vermillion county. Serious charges are being hurled back and forth between the wets and dries and prominent Westville men have publicly been charged with causing the disappearance of the minister.

COOKS RESPONSIBLE FOR PREVALENCE OF CANCER

Dr. Mayo Explains That Cancer of Stomach Forms Third of All Cancer Cases Among Civilized Peoples.

New York, April 9.—A statement by Dr. William J. Mayo that the prevalence of cancer is perhaps traceable to present methods of cooking was to the layman one of the salient opinions in a maze of technical discussions at the opening of the American Surgical Association's annual convention today. Dr. Mayo, a delegate from Rochester, Minn., and president of the association, explained that cancer of the stomach formed a third of all cancer cases among civilized peoples.

"Is there some fundamental fault in the food or in the cooking of civilized men that gives such a preponderance to pre-cancerous conditions in the gastric region?" he asked.

"Among the lower animals cancer of the stomach does not form nearly such a large proportion of the total number of cases."

Dr. Mayo said that the amount of meat consumed undoubtedly had something to do with the prevalence of cancer.

During a discussion about the advisability of operating for appendicitis, Dr. James E. Moore of Minneapolis, said that he felt that the removal of the appendix was "an interference with the designs of the Lord."

ALLEGED FORGERS ARE BROUGHT BACK TO CHICAGO FROM HONOLULU

CHICAGO, April 9.—John Fielding, 23, auditor of an adjusting company at Montreal and his brother Arthur, 21, an accountant in the royal bank of Canada at St. Lambert, under indictment here for forgery were brought back to Chicago today from Honolulu.

The brothers are said to have asserted that when after they began work they learned their employers could be swindled out of large sums because of the system of bookkeeping. They said they revised the system to make forgery impossible without detection and submitted the plan to their employers, who rejected it.

They decided to prove they could pass forged paper, they said. A forged draft for \$1,800 they claimed was mailed to a Chicago bank and they arrived here Feb. 17 and collected the money. They said they were robbed soon afterward in a cafe here.

TWENTY-SEVEN PASS EXAM.

Springfield, Ill., April 9.—The state civil service examination for state road engineer was passed by twenty-seven applicants, it was announced here today. Only eleven of the successful were from Illinois, the successful were from Illinois, Massachusetts, North Carolina, Massachusetts, Montana, Kentucky, New Mexico, Pennsylvania, New York, New Jersey, Indiana and Missouri were represented among candidates for the position.

FURTHER INQUIRY BEGINS.

Washington, April 9.—Further inquiry into the financial operation of the New York, New Haven & Hartford railroad under the administration of Former President Chas. S. Mellen, will be begun tomorrow by the inter-state commerce commission. Mr. Mellen and a number of New England railroad men and bankers have been subpoenaed and will be present when the session opens.

ESCAPES FROM FIRE, IS SHOT.

St. Louis, April 9.—Carl Strauss, president of garment company, who escaped from the Missouri Athletic club fire in which his two roommates perished, was shot and seriously wounded by Mrs. Etta Cook, a divorcee, here today. The shooting took place in a doctor's office in a downtown office building.

AMERICAN STEAMER SINKS NORWEGIAN BARK

VESSEL ARRIVES AT NEWPORT NEWS WITH SURVIVORS

Collision Occurs off Barnegat at 10 P. M. Wednesday—Two go Down With Ship—Excitement Causes Death of Captain.

Newport News, Va., April 9.—Bringing the body of the captain and eleven survivors of the Norwegian bark Orellana, which was rammed and sank off Barnegat, N. J., last night at 10 o'clock, the American steamer Peter H. Crowell arrived here tonight from Boston. Two men went down with Orellana and the captain was dead when taken from the water. Details of the wreck were hard to obtain as the Crowell had not docked and will not land the survivors until tomorrow.

Captain Vail reported to Consul Richardson that the collision occurred during misty weather with the sea calm and was due to poor lights displayed by the Orellana. The Crowell struck the bark while steaming almost full speed. The wooden ship filled rapidly and fifty minutes after being struck sank in seventeen fathoms of water.

Captain Vail said great confusion prevailed aboard the bark following the crash, Captain Johannsen losing control of his men entirely. The sailors, after Captain Johannsen and the mate had succeeded in getting the latter's wife into one of the two boats, piled into them so wildly that both were swamped. In the meantime the Crowell was standing by and Captain Vail had ordered his lifeboats lowered and Captain Johannsen, the woman and ten were picked up. Captain Johannsen, who was 65 years of age, was dead when taken in one of the rescue boats and his death is thought to have been due to heart disease aggravated by the excitement of the wreck. Two members of the crew failed to leave in the boats and went down with the ship. The Orellana was 57 days out from Boulogne, France, for New York and the Crowell was bound from Boston to the port.

CONDEMNNS ADMINISTRATION.

Maine Republican Convention Decries Surrender to Great Britain.

Augusta, Me., April 9.—A move to have the Republican state convention today recommend the nomination of Theodore Roosevelt as a candidate for president in 1916, met with failure. A resolution to that end adopted by the Republican caucus of the town of Yarmouth, was offered as an amendment to the platform. The platform as adopted condemns the National Democratic administration for what is declared to be its hurried surrender to Great Britain in the matter of the Panama canal, "its violation of platform pledges and its vague vacillating policy in dealing with conditions in Mexico." National prohibition is favored.

MILLIONAIRE POUNDMASTER.

Rich Attorney to Act as Dog Catcher for Fashionable Chicago Suburb.

Chicago, April 9.—The sight of a millionaire citizen in earnest and vigorous pursuit of stray dogs and other animals for the capture of which he will receive a small fee, no longer will surprise residents of New Trier township, a Chicago suburb.

As a result of last Tuesday's election, Sherman M. Booth, millionaire attorney, leader of the Progressive party and whose wife is prominent in national woman's suffrage circles, was elected poundmaster. Neither the New Trier Good Government league of which Mr. Booth is the head nor its opponents made a nomination for poundmaster, but when the ballots were counted it was found Mr. Booth's name had been written in more frequently than any other.

"A practical joke," is Mr. Booth's explanation of his election. "I will take the office," he said, "and fill it efficiently."

GOVERNMENT AID

NEEDED IN WEST

Financial Aid for Relief of Irrigation Projects Crying Need.

Denver, Colo., April 9.—Government financial aid for the relief of irrigation projects in the west was held up as a crying need by speakers at the first day's session of the irrigation conference called by Secretary Lane of the interior department. It was stated today that the California delegation would introduce a resolution to amend the reclamation act so that funds raised from the sale of public lands shall be used for reclamation in the states where the lands sold are situated.

PRESIDENT LEAVES

ON THREE DAY TRIP

Party Goes to West Virginia for Benefit of Mrs. Wilson's Health.

Washington, April 9.—President Wilson left here at 11:10 o'clock today for White Sulphur Springs, W. Va., for a three day trip the object of which is to benefit the health of Mrs. Wilson. In the party were also the Misses Margaret and Eleanor Wilson, Mr. and Mrs. Francis Bowes Sayre, Secretary Tumulty and Dr. Cary T. Grayson, U. S. N.

SEN. LODGE DEFENDS REPEAL OF TOLL EXEMPTION MEASURE

Canals Committee May Experience Delay Awaiting Arrival of Commercial Representatives Who Are to Appear at Hearings.

THURSDAY IN CONGRESS.

Senate.
Met at noon.
Canals committee began hearings on the Panama tolls exemption repeal.

Senator Kenyon prepared to renew his movement to abolish executive sessions, except for foreign affairs.
Senator Lodge spoke in support of the Panama tolls exemption repeal.

Adjourned at 5 o'clock to noon Friday.
House.
Met at noon.
Resumed debate on the legislative, executive and judicial appropriation bill.

Recessed at 5:30 p. m. to 8 o'clock p. m.
Considered seventy-nine private claim bills and passed fifty-one.

Adjourned at 11 o'clock till noon Friday.

Washington, April 9.—Hearings on the Panama tolls exemption repeal bill opened today before the senate canals committee, but interest in the repeal fight was focused on the senate itself, where Senator Lodge, veteran Republican member of the foreign relations committee, held the attention of virtually the entire membership and of crowded galleries for more than two hours, defending the position of President Wilson in insisting upon the passage of the repeal bill.

The senator spoke without a single interruption. He declared that in his opinion the right of the United States to exempt any of its shipping from tolls was unquestioned under strict interpretation of the treaty, but because of the delicate position in which the country finds itself in its foreign relations, urged non-partisan support of the president. At the conclusion of Senator Lodge's address the galleries broke into applause and the vice president's gavel pounded several minutes before order was restored and the warning given that senate rules prohibited any display of approval or disapproval from the gallery.

Before the canals committee Senators Norris and Thomas appeared to discuss their tolls proposition, the session marking the beginning of the fifteen day public discussion decided upon earlier in the week. It was doubtful tonight just what the program of the hearings would be for the next few days. Representatives of commercial organizations in Pacific coast cities and New Orleans at whose request the hearings were ordered have not arrived and several senators who have submitted substitutes for the Sims' repeal bill which passed the house intimated today they had no desire to defend their proposals before the committee. Consequently a delay to await the arrival of commercial representatives appeared probable.

Senator Kenyon announced during the day that he approved the suggestion of former President Roosevelt that the tolls question be arbitrated.

Senator Newlands, Democrat, of Nevada, issued a statement late today announcing that he would oppose the repeal bill.

CIGAR SMOKER

BRINGS DISASTER

Causes Dirigible Balloon Explosion Injuring Many People.

Milan, Italy, April 9.—The dirigible Balloon Citta di Milano, which was built by public subscription and presented to the army, was entirely destroyed today. The balloon landed outside of Milan owing to damage to her motor. Almost immediately a crowd gathered and notwithstanding the warnings of the officers aboard, some one imprudently lighted a cigar. A tremendous explosion resulted and fifty persons suffered injuries of various kinds, two of them being dangerously hurt. An outburst of flames completed the damage done by the explosion.

WEALTHY MERCHANT INDICTED

Grand Jury Indicts Anthony B. Trentman For First Degree Murder.

Fort Wayne, Ind., April 9.—Anthony B. Trentman, a wealthy Fort Wayne and Chicago business man who shot and killed Howard Bruce, a negro waiter employed at a local hotel because the waiter was indifferent to his request for his overcoat, was indicted for first degree murder by a special grand jury here today.

TELLS OF IRRIGATORIES

IN TERRE HAUTE ELECTION

Election Judge Claims all Unused Ballots Were Burned by Inspector.

Terre Haute, Ind., April 9.—That unused ballots were burned instead of being returned to the city clerk as required by law and that the tally sheets showing the vote in the last city election were signed before the count was made, was the testimony of Len H. Hollis, a Progressive election judge, in the trial of Mayor Donn M. Roberts, charged with election frauds here today.

BRIEF NOTE MAY GAIN RESPITE FOR GUNMEN

MESSAGE TENDS TO DISCREDIT TESTIMONY AGAINST CONDEMNED MEN

Governor's Legal Advisers Agree to Permit Finder to go Before Supreme Court Justice and Tell His Story Under Oath.

Albany, N. Y., April 9.—Eleven words written on a slip of white paper which was found in a bundle of old correspondence by L. B. M. Brown of New York may prove the means of obtaining a stay of execution for the four gunmen convicted of the murder of Herman Rosenthal.

According to Mr. Brown, the note which contains a warning against credence to statements of Morris Luban and Max Margolis, who were witnesses against the gunmen, was written by a former assistant to District Attorney Whitman. It was intended, says Brown, for the guidance of former Governor William Sulzer in whose behalf, it was reported at the time the communication was indited, Luban would appear as a witness at the former governor's impeachment trial. The note bears no date, nor signature. Brown said it was written early last fall. This is what the note says:

"Be very careful as to anything given by Luban or Margolis."

Upon discovering the note Brown took it to Governor Glynn and begged it be given consideration. The governor called in his legal advisers and the latter agreed in behalf of the district attorney to waive legal formalities and go before a supreme court justice and permit Mr. Brown to tell his story under oath if he desired to make an effort to obtain a respite or a new trial for the condemned men.

A futile attempt to appear personally to the governor for the lives of the gunmen was made today by three relatives and a friend of the condemned men's families. They were the wives of Louis Rosenberg, "Lefty Blood," and Harry Harowitz, "Gyp the Blond," and the mother of Jacob Seidenshner, "Whitey Lewis" and a Mrs. Volk, of New York.

The governor explained that he had refused to see the women because he thought it useless.

Frank Moss Wrote Caution.

Chicago, April 9.—Frank Moss, former assistant district attorney in New York, wrote the caution "Be careful as to anything given by Luban or Margolis," which has formed the basis for another effort to obtain a stay of execution for the four gunmen convicted of the murder of Herman Rosenthal according to District Attorney Charles S. Whitman of New York who is in Chicago.

Mr. Whitman who attended a banquet tonight asserted that Moss was the author of the memorandum.

APPROACHING FORTY

CENT MARK.

Professor Declares Gasoline Price Will Rise Rapidly.

Cincinnati, Ohio, April 9.—Some rather startling statistics were brought forth in the convention of the American Chemical Society for the benefit of automobilists.

In his address on "Some economic phases of the use of gasoline," Prof. Benjamin T. Brooks declared that gasoline is rapidly approaching the 40 cents a gallon mark, at which point Prof. Brooks declared alcohol would be an active competitor.

Discussion was aroused over the paper read by Dr. Edward Guegan of Chicago in which he said that the inhalation of sulphurous acid fumes by patients in the incipient phases of tuberculosis had greatly aided in their cure. The convention closed tonight with a banquet.

HIGGINS ARRAIGNED

IN COURT TODAY.

Julia Flake Will Not Be Arraigned Until Later.

Galesburg, Ill., April 9.—Robert Higgins, indicted on charge of having murdered his wife to clear the way for his love affair with his 17 year old step-daughter, will be arraigned in court tomorrow, according to a statement today by State's Attorney Wilson.

Julia Flake, Higgins' step-daughter, indicted as accessory to her mother's murder, will not be arraigned until later. The state's attorney said he expected Higgins to plead guilty.

GETS 10 DAYS IN WORKHOUSE.

Member I. W. W. Punished for Participation in Disturbance.

New York, April 9.—Ten days in the workhouse was the punishment given Philip Novick today for his participation in the Industrial Workers of the World disturbances in Union Square Saturday.

According to the evidence, Novick, the last to be tried of the ten men arrested, interfered with a policeman who was arresting Joseph E. O'Carroll, a young I. W. W. leader, who was freed by a magistrate and the alleged assault on him is being investigated.

POTS AIDS STATE TREASURY.

Springfield, Ill., April 9.—State Superintendent of Insurance R. M. Potts has further aided the state treasury by turning over \$339,128.80 collected by him in earnings, fees and taxes for quarter ending April 1.

GOMPERS CHARGES UNFAIR TREATMENT BEFORE COMMISSION

Declares Western Federation of Miners Was Not Fairly Treated in Calumet Copper Strike.

Washington, April 9.—Charges by Samuel Gompers, president of the American Federation of Labor that the Western Federation of Miners has not been treated fairly in the Calumet copper strike and criticisms of the principle of compulsory arbitration in labor disputes by representatives of both employers and employees today marked the close of the first of a series of hearings by the United States Industrial Relations Commission on collective bargaining.

The Western Federation of Miners, Mr. Gompers said, had been given a bad name by its enemies and by an old declaration of principles adopted years ago. He declared the members of the federation had conducted themselves peaceably and fairly at Calumet and for the last few years the organization has been conservative in its general attitude. The Canadian industrial disputes act under which employers and employees are forced to defer drastic action until arbitration has been tried, was criticized as a form of "slavery" by Mr. Gompers. Mr. Gompers placed responsibility for most labor strikes on unorganized or newly organized men and said that most trouble of this kind is caused by the mental attitude of employers and employees.

The commission plans to hold several executive meetings beginning tomorrow to consider the evidence gathered at the hearings here and then to take up consideration of efficiency plans at another hearing, starting April 13th.

GUERNSEY COW ESTABLISHES

WORLD'S BUTTER FAT RECORD

PETERSBURG, N. H., April 9.—By producing 1059.59 pounds of butter fat in a year, a new world's record has been established by a Guernsey cow at the Cassatt Farm at Berwin, Pa., according to an announcement today by William D. Caldwell, secretary of the Guernsey Cattle association.

SUFFRAGETTE USES

BUTCHER'S CLEAVER.

Attempts to Demolish Valuable Porcelains in Museum.

London, April 9.—With a butcher's cleaver which she had concealed under her cloak, a suffragette started this afternoon to demolish a glass case and its contents, consisting of valuable porcelains in the Asiatic gallery of the British museum.

At the time there were few visitors in that section and on this the suffragette doubtless counted for long enough freedom from interruption to complete the work of destruction. But the sound of splintering glass carried far and before she had struck many blows two attendants reached the spot and seized her and turned her over to the police.

At the police station the woman refused to give her name or address, but it was said that she was recognized by detectives as a member of the woman's social and political union.

STAYS SUFFRAGETTE.

Minneapolis, Minn., April 9.—Mary Ronaltek was stabbed six times today because she championed the cause of woman's suffrage. Mrs. Anna Fudegagel, who, it is charged, did the stabbing, is under arrest. Mrs. Fudegagel according to the police, asserted woman's place was in the home and resented Mrs. Ronaltek's declaration that women had the same right to vote as men, with knife thrusts.

Mrs. Ronaltek will recover.

RECRUIT SPRAINS ANKLE.

Lincoln, Neb., April 9.—Louis Barbour, a recruit infielder for the Chicago Americans is believed to have sustained a fracture of a small bone in his right ankle according to the statement of Trainer Gleason of the Chicago team this afternoon. Barbour sprained his ankle while sliding into second base yesterday during the exhibition game between the Chicago team No. 2 and the Lincoln Western League team.

NOMINATED FOR SENATOR.

Marshalltown, Iowa, April 9.—M. L. Christian of Clinton, Iowa, was nominated by the Prohibition convention here today for its senator.

REPUBLICAN PARTY TRUE PROGRESSIVES

SEN. CUMMINS CHIEF SPEAKER AT HAMILTON CLUB DINNER

Speaker Blames Republican National Committee for Democratic Victory of 1912—Predicts Democratic Defeat by United Republican Party in 1916.

Chicago, April 9.—United States Senator Albert B. Cummins of Iowa here tonight criticized the Democratic administration, defined his stand on the tolls repeal bill, pronounced the Republican party the true progressives and blamed the Republican national committee for the Democratic victory of 1912. He was the chief speaker at the Hamilton Club dinner of the Hamilton Club, Democratic defeat at the next national election Senator Cummins predicted, would be effected by Republicans and Progressives united as the Republican party and embracing a platform of Progressive doctrines. Referring to the record of the Democratic administration, Senator Cummins declared it unnecessary to speak of the congress.

"The president has for the time being obliterated that once powerful department of the government," he said. "When, therefore, I speak of the Democratic administration I mean Woodrow Wilson. The overthrow of Representative government does not seem to have excited alarm but the day will come when the country will understand better than it does now how vital it is to preserve independence or legislative authority."

"The president passed the tariff law. The Republican tariff of 1909 was too high. We ought to have reduced it but we did not and are now suffering the consequences of our folly. The fact that our tariff was much too high furnishes no defense for the extraordinary compound of ignorance and indifference which this administration has fastened upon the country. It acknowledges no economic principles but its crowning injustice is in its rank, deliberate discriminations."

Great Britain's Friendship Costly.

The Panama tolls exemption repeal probably will pass the senate according to Senator Cummins.

"There are two entirely distinct and independent questions involved in this controversy," he said. "The first concerns a domestic policy and with it no foreign nation has a right to interfere and we would be a craven people if we permitted even the suggestion of interference."

"The second question concerns our rights under the treaty. To that I would say there is nothing in the treaty, nothing in the understanding in the treaty at the time it was made that in any way restricts or limits our absolute sovereignty in this regard and the man who is willing to accept the construction asserted by Great Britain or yield to the still more ignominious interpretation involved in assenting to the demand made by the president is willing to pay a higher price for the friendship of that great country than I am willing to pay for the favor of the whole world."

"To repeal the exemption clause and to meet the attitude which a foreign nation has assumed toward a reassertion of our power over coast-wise shipping is to put the British construction upon the treaty forever. I am appalled when I think of the consequences of that interpretation."

"If it is a correct one, then it would have been better if we had not entered upon the mighty enterprise. It binds us to an obligation that a nation with the least sense of self respect cannot and will not observe."

The Republican defeat of 1912, Senator Cummins declared had been the result of some of the leaders to heed the voice of the rank and file of the party.

"We suffered defeat and disaster," he said, "because some of the men clothed with the power of office refused to grapple with their problems."

"The unfair, unjust representation of the south and the overthrow of the primary laws were two of the three factors which brought about the disintegration which followed."

MISS DEANE OBERMEYER HEARD IN CONCERT

Gives Splendid Recital at Woman's College Thursday Afternoon—Pupil of D. M. Swarthout.

Miss Deane Obermeyer, a candidate for certificate of musical proficiency, in the college of music at the Woman's college, was heard in a brilliant recital Thursday afternoon. She is a pupil of D. M. Swarthout and many of her friends were present to hear her play.

Her first number, Grieg's ballade was really a theme with variations, full of beautiful effects and unexpected harmonies, handled as only Grieg can. Miss Obermeyer at once demonstrated her thorough musicianship and played the difficult composition with remarkable skill, bringing out faithfully the ideas of the composer, playing with power and assurance.

Her second group was by Chopin consisting of a Nocturne in F, sharp major; Etude Op. 10, No. 4; Etude, Op. 25, No. 7; Scherzo in B minor. This group was most artistically given. In the so-called “Cello” Etude she showed a fine singing tone, full of depth and feeling. The Scherzo was executed at a splendid tempo, working up the climaxes in brilliant fashion and closing with dash and spirit.

The Reinecke Concerto, with the orchestra part played on the fine college organ by Mr. D. M. Swarthout made a magnificent closing number, each of the three movements, Allegro, Adagio ma non troppo and Allegro con brio, being interpreted with breadth and accuracy. Miss Obermeyer securely established herself in the community as a pianist of unusual ability.

POINTS OUT FAULTS IN SPECIAL CHARTER

PRES. RAMMELKAMP ADDRESSES FOURTH WARD RESIDENTS

Arguments for General School Law Presented by Head of Illinois College—Mrs. J. H. Danskin and Mrs. W. S. Badger Give Views on Law.

At a meeting of the residents of the Fourth Ward Thursday afternoon for a discussion of the proposed adoption of the general school law, the faults of the present special charter were pointed out by Dr. C. H. Rammekamp, president of Illinois college and arguments in favor of the change were set forth by Mrs. James H. Danskin and Mrs. W. S. Badger, of the Woman's Civic League. The meeting was held under the auspices of the Civic League and was called to order at 3:30 in the Fourth Ward School building. Toward the close of the program Mrs. D. W. Reid and Mrs. Badger gave brief presentation of the work of the clean-up committee. The gathering was well attended and marked interest was displayed in the various phases of the school system brought out by the speakers. After adjournment a business session of the Woman's Civic League was held.

Mrs. Badger, the presiding officer, read a paper in which she pointed out in a clear and forceful manner a number of reasons in favor of the change from special charter to general law. She said that a term of three years for school board members instead of two, would allow a man or woman to become better acquainted with his duties and hence more efficient. With at least four hold-over members at all times on the board, the newly elected men would have the benefit of their experience and greater stability would be secured.

Mrs. Danskin brought a greeting from the other cities in which she has been working during the local option campaign and spoke out loyally for Jacksonville as the place for a home. She compared the work here with the civic activities of women in other cities and expressed gratification at the successes of the Woman's Civic League. In presenting her views on the school law question she pointed out Aurora as a city which is worthy of our emulation. The next speaker was President C. H. Rammekamp, who gave a very scholarly presentation of the subject with special reference to the defects in the special school charter.

Dr. Rammekamp favors Law. The speaker explained the nature of the special charter under which the city schools are being administered and then gave a brief account of the changes which the general law, if adopted, would introduce. Instead of four members and a president, we should have nine members and a president. The members would be elected for terms of three years each except the president, who would be elected annually. The members would divide themselves by lot into three divisions so that one third would go out of office each year.

Continuing the speaker said: “I have tried to look at this question judicially and impartially. Of course, I do not mean to imply that anybody else who has thought on the same subject and come to a different conclusion from my own has not looked at the question in the same spirit and with the same purpose. The public schools constitute one of the most general and vital interests of the community and we are all anxious to adopt the best methods and secure the best results. Others have already spoken on this subject in the other wards. Most of the arguments have already been presented and I shall not attempt to cover the whole ground. I mention only those phases of the question which appeal to me with particular force.

Objections to Charter. “The term ‘special charter’ suggests to some minds as it did to mine at first, that we have a grant of some unusual privileges in this document, which it would be foolish for us to surrender. However, that is a false impression. There certainly are no unusual financial prerogatives conferred by this special charter. Like other communities we have the privilege of paying for our schools. Furthermore, the administrative advantages supposed to be conferred by the special charter are to say the least, of a very doubtful nature. In fact I believe, as other speakers have stated, that instead of conferring unusual advantages, this charter is out of date and is really a hindrance to the best development of our schools.

“I am for the general law because I believe it will bring our local system into harmony with the educational system of the state. A few years ago an educational commission was appointed by action of the state legislature. This body consisted of educational experts, seven men including besides the state superintendent, the president of the state university and some of the ablest representatives of the other educational institutions of our state. These men strongly recommended abolition of the anomalous special charters. Their report emphasizes the fact that these special charters only complicate and confuse the general educational system of the state. At the time of the adoption of the constitution of 1870, seventy-eight of these special charters were in existence. Today the number has been reduced to about thirty-five. It is stated on the authority of this commission that these thirty-five special charters ‘give rise to more vexatious legal questions than all of the 11,785 other school districts put together.’ It will be interesting to note some of the towns that once had special charters but have since surrendered them. The list includes such towns as Aurora, Augusta, Bushnell, Chicago, Evanston, Free-

port, Lincoln, Monmouth, Ottawa, Pittsfield, Quincy, Urbana and Vandalia. In that list are certainly a number of towns that have some of the best schools in our state. We shall be in good company if we pass under the general law.

Evils of Ward System. “I am for the general law because I believe it will introduce a better system for the administration of our schools. I regard the ward system of representation as one of the worst features of our present system. It fosters too much the idea of conflicting local interests. What is good for one school is good for another. If a victrola is good for the fourth ward, it is good for the other wards and for the high school. There is no reason why the children of the fourth ward should have this advantage or any other over the children of the other wards. I have understood that in some cases different texts are used in different wards, and we all know that this overemphasis of the independence of the individual wards and their managements, occasionally leads to some peculiar appointments. The situation of the superintendent under such a system is far from enviable. We are sometimes inclined to criticize our superintendent, both this one and his predecessors, but when one considers how many conflicting masters they have to cater to, I am surprised that they have done so well. The general law will tend, I believe, to improve these conditions. It will certainly introduce greater uniformity and harmony into the administration of our schools. It may increase the power of the superintendent, but it will also increase his responsibility.”

The speaker in conclusion emphasized the argument that the adoption of the general law would tend to divorce the schools from city politics. He did not believe that the change would work a miracle for the schools, for there would still remain the same necessity and responsibility of the voters to select able men for the board of education. Under a democratic government, no system can be devised that will give us a better government than we deserve and want.

The Civic League Session. Mrs. David W. Reid and Mrs. Badger closed the program by reference to the plans for clean-up week, April 20-25, and a mention of the part played in this campaign by the Civic League. In a business session, called immediately after the adjournment of the general meeting, the Woman's Civic League decided to hold a mass meeting of the women of the city the early part of next week. A program is in course of preparation and a rousing gathering in support of the change in school administration is anticipated.

MEMBERS OF STATE STREET CHURCH IN ANNUAL MEETING

Well Attended Gathering Held Thursday Evening at Church—Reports Read and Elders, Trustees and Deacons Elected.

The annual meeting of the State Street Presbyterian church was held Thursday evening in the Sunday school room of the church with a good attendance. The meeting was preceded by a delicious three course dinner which was served at 6:30 in the dining hall by a committee from the Aid society. Trustees, elders and deacons were elected to fill expiring terms and reports were given by the various church organizations. The church during the past year, has been in a prosperous condition and the annual reports showed creditable work along all lines of religious activity. The Rev. Howard D. French, pastor of the church, presided and J. S. Hackett, stated clerk of the sessions, acted as secretary.

The trustees elected were E. M. Dunlap, L. W. Chambers and J. K. C. Pierson, to fill the expiring terms of Dr. A. L. Adams, L. O. Vaught, Walter Ayers, and C. H. Russell to fill the unexpired term of Judge C. A. Barnes. The three elders, William Floreth, Dr. C. C. Cochran and W. S. Badger, were elected to succeed themselves. The deacons chosen at this meeting are Ollie Parker, Robert Reid, R. L. Dunlap and Emmett Miller.

The sessions of the church were represented by T. M. Tomlinson, clerk of the sessions and the treasurer's report was given by F. E. Farrell. His report showed a practically even balance sheet. Miss Katherine Parker told of the splendid work of the young ladies of the Josephine society and Mrs. L. W. Chambers spoke of the work of the missionary society. Mrs. Ollie Parker gave the report of the State Street Presbyterian Ladies' Aid. The Aid treasurer, Miss Nell Doying, reported a balance in the treasury of \$302.10. Of their earnings last year, the members of the Aid society have appropriated \$150 for the purpose of aiding in the fitting up of dormitories at the Y. M. C. A. The pastor made a short address in which he spoke of the work of the brotherhood, the vesper services, the increase in attendance of the morning services and the problems confronting the young people's society. A vote of thanks was extended John L. Johnson, for his excellent services as a tenor singer for the past year.

One hundred twenty members of the church partook of the dinner at 6:30. The ladies who had charge were Mrs. W. B. Winchester, chairman; Mrs. W. C. Wright, Mrs. T. M. Tomlinson, Mrs. C. A. Johnson, Mrs. H. H. Bancroft and Mrs. William Floreth. The committee were assisted by seven young men, who served as waiters. They were William Floreth, Jr., Vinton Farris, Worthington Adams, Emmett Miller, Edward Tomlinson, Dean Winchester and Earl Fitch.

SERVICES LARGELY ATTENDED. Services at Centenary M. E. church Thursday evening were largely attended. The Sunday school auditorium being nearly filled. Rev. Mr. Flagg took as his text Luke 22-19, "This in Remembrance of Me." His subject was "Marvelous Tokens," and he brought out that they were marvelous for their simplicity, for the respect they command from men not His followers and as an expression of our love for Him and of His love for us. After the sermon the sacrament of the Lord's supper was given.

The subject for tonight will be "Light for the Gentiles."

MATRIMONIAL

Oliver-Smith.

A very pretty home wedding took place Thursday evening at 8 o'clock at the residence of Mr. and Mrs. Edward Smith, 1020 North Main street, when their daughter, Miss Rose, became the bride of Mr. Benjamin Oliver. They were accompanied by Miss Lillian Smith, a sister of the bride, and Mr. Herbert H. Vasconcellos, and the ceremony was witnessed by a large number of relatives and friends.

The home was beautifully decorated for the occasion with ferns and flowers and a color scheme of pink and white was carried out. The young people entered the parlor and took their places beneath a beautiful arch illumined with pink and white electric lights, while Mrs. Grace Ferreira played the wedding march from Lohengrin. Rev. Walter E. Spoonst, pastor of Northminster Presbyterian church performed the ceremony.

The bride wore a gown of white silk crepe meteor with tulle of chantilly lace and pearl trimmings and carried a shower bouquet of bride's roses. The bride's maid wore pale green crepe meteor trimmed with shadow lace and pink rose buds and carried pink carnations. The groom is a son of Mr. and Mrs. John Oliver and both young people are decidedly popular among a wide circle of friends. They received a large number of beautiful and useful presents, among them many beautiful pieces of cut glass and silverware. They will reside at 234 West Walnut street.

An amusing incident of the evening was the cutting of the bride's cake. Miss Dorothy Roberts secured the darning needle, Mrs. Benjamin Oliver the dime, Lee Wolke the ring and Cree Smith the thimble. Mr. and Mrs. Joseph Smith of Springfield were among the out of town guests.

John R. Stewart-Oxley. John R. Stewart and Miss May Oxley were married Wednesday evening at 9 o'clock at the home of her cousins, Mr. and Mrs. Walter S. Hill, 459 South Sandy street, in the presence of a few friends. Rev. J. W. Kirk officiating. Following the marriage refreshments were served. They will make their home at 812 Anna street.

CITY'S SCHOOL CHARTER ADOPTED FORTY-SEVEN YEARS AGO

Original Act Was Amended Two Years Later—No Charters Granted After State Constitution Was Adopted.

The Jacksonville charter was granted in 1867 and amended in several particulars in 1869. No charters were granted after the adoption of the state constitution in 1870. As very few citizens are familiar with all the provisions of the charter it will be reprinted in the Journal in two or three installments. The copy is taken from a book of city laws compiled in 1884 by H. C. Dummer.

1. School District—Act February 15, 1867. Section 1. All the territory within the limits of the city of Jacksonville, in said county of Morgan, according to its present or future boundaries, is hereby erected into a common school district.

2. School Funds—Ibid section 2. All school funds from whatever source derived, belonging to township No.—, Morgan county, Illinois, held or owned for school purposes, shall be divided between the city of Jacksonville and the portion of the said township without the same, in the proportion and manner following. The school trustees of the several districts of said township shall, within thirty days after the first election contemplated by this act, appoint two commissioners who are freeholders, one a resident of said city, the other of said township without the city, who, after being sworn well and truly to discharge their duties, shall ascertain the whole number of persons under the age of twenty-one years, residing in the whole of said township, and the number in said city, and within the township without the city, and thereupon said trustees shall divide and apportion said funds of said township between the city and the township without the city, according to the number of persons under the age of twenty-one years residing in said township. Said trustees shall have power to supply any vacancy occurring among said commissioners.

3. Board of Education—Ibid section 3. The said trustees, or other person or persons having custody or control of said funds, shall pay over and deliver to the board of education of Jacksonville school district the portion of funds to which said school district may be entitled. The public schools of said district shall be under the exclusive control and management of a board of education, to consist of a mayor of the city, who shall be the president of the board, and one from each ward of the city to be known as the "board of education" of Jacksonville school district, each of whom, with the treasurer and clerk of said board, shall be sworn to discharge their duties with fidelity.

4. How Chosen—Act March 29, 1869. Section 3. That section three of article eleven of the charter of the said city of Jacksonville be so amended that the members of the board of education, representing the different wards, shall hereafter be elected by the people at the city elections of city officers, and shall go out of office as follows: two at the end of one year, and two at the end of two years; and that after the first election of said board, to-wit: at the next election of city officers they shall cast lots in the presence of the city council for the long and short term of office and the two upon whom the lot for the short term shall fall shall go out of office at the end of one year; and the other two at the end of two years and the city council shall make a record thereof. And after the first election of the board of education, that two members thereof shall be elected each year in conformity with the amendment.

5. Control of Lands and Funds—Act February 15th, 1867. Section 4. Said board shall have the exclusive control over the school lands, funds, and other means of said district for school purposes, and shall have full power to do all acts and things in relation thereto to promote the end designated; may sell or lease said lands, or other lands or property which may have been or may hereafter be donated, purchased or designed for school purposes in said district, on such terms, for cash or credit, and such time as they may see proper; they shall have full power to receive conveyances or donations and to make the necessary deeds or leases of lands; and all conveyances by the board shall be signed and acknowledged before some competent officer of the president and

secretary of said board; provided, however, that no sale or lease of land for more than one year shall be made without the concurrence of a majority of the directors, with or without the president, shall constitute a quorum for the transaction of business, and in the absence of the president they may appoint one of their own body president pro tempore. The president shall only vote in case of a tie, when he shall have a casting vote.

(To Be Continued.)

6. May Lease or Buy Property, Etc.—Ibid Section 5. Said board shall have full power to lease or buy sites for school houses, with the necessary ground therefor; to erect, hire or purchase buildings, school houses, and keep them in repair; to furnish schools with necessary books, fixtures, furniture, apparatus, and library or libraries; to establish, conduct and maintain a system of graded schools, to be kept in one or more buildings in said district; to supply the insufficiency of school funds for the payment of teachers and other school purposes and expenses by school taxes, to be levied and collected as hereinafter provided; to determine the number, make the appointment and fix the amount of compensation of teachers within said district, and to appoint a general superintendent of schools, prescribe his duties and fix his salary, and to appoint all other agents and servants and fix their pay; Provided, that the said directors shall, in no case, receive any compensation, except such as may be determined and fixed by the city council; to prescribe the studies to be taught and books to be used including maps, charts, globes, etc.; to lay off and divide said district into smaller districts, and to alter the same and erect new ones at pleasure; to pass by-laws, rules and regulations to carry their powers into complete execution, and for the government of their own body, their officers, agents, and servants, and providing for their meetings and adjournments, and generally to have and possess all power and authority necessary for the proper establishment and control of an effective system of graded schools within said district, and they shall visit each and all the schools therein as often as may be necessary.

SUIT ATTACKS ACT AS UNCONSTITUTIONAL.

Petition Filed in Springfield to Prevent Combining of Plants.

Springfield, Ill., April 9.—In a petition filed today in the circuit court in the case against the city brought in an effort to prevent the city from combining its light and water plants and entering the commercial lighting field, the act of June 26th, 1913, permitting cities to sell electricity and power is attacked as unconstitutional on the ground that it is class legislation. The contention is also made that the title of the act does not indicate its substance.

Springfield is in a desperate struggle with the corporation controlling the local public utilities. City Commissioner W. J. Spaulding, who is leading the fight for plant amalgamation, contends that by combining the plants the city can formidably compete with the utility corporation in the commercial light and power field.

Edward W. Payne, a local banker, filed the petition today attacking the utility act.

RELATIVE OF

INDIANAPOLIS, Ind., April 9.—Robert E. Woodrow, a distant relative of President Wilson, was killed here today when his motorcycle collided with a heavy truck. Woodrow's father was a cousin of President Wilson's mother.

GREENVILLE, S. C., April 8.—Eben S. Draper, former governor of Massachusetts, died here late today. Mr. Draper was stricken with paralysis here Tuesday. He was 65 years old and a prominent manufacturer of textile machinery in New England.

BILL FAVORABLY REPORTED. Washington, April 9.—A bill to appropriate \$500,000 for a government exhibit building at the San Francisco Exposition in accordance with President Wilson's suggestion, was favorably reported today to the house by the industrial arts and exhibitions committee.

ROSECRANS W. PILLSBURY, twice the Republican candidate for governor of New Hampshire and candidate for United States Senator two years ago, has announced his candidacy for the Republican gubernatorial nomination again this year.

GLYNN SIGNS FOLEY BILL. Albany, N. Y., April 9.—Women watchers at the polls if the proposed woman suffrage constitutional amendment is voted on in 1915 were assured today when Governor Glynn signed the Foley bill granting this privilege to women.

CHILD BURNS TO DEATH. Rockford, Ill., April 9.—Harold Koel, six years old, was burned to death today when his clothing caught fire while he was playing near a bon fire.

Easter Hides. Heinl's.

Four avowed aspirants are in the field for the Democratic nomination for United States Senator from Ohio, in succession to Senator Burton. They are ex-Congressman John J. Lentz of Columbus, John L. Zimmerman of Springfield, Attorney General Timothy S. Hezcan and Charles L. Swain speaker of the Ohio house of representatives.

The Minnesota supreme court has upheld the non-partisan primary law of that state.

We Keep Your Suit New!

The man who does not have his clothes dry cleaned and pressed frequently, does not get the full wear out of them.

Long before the clothes are worn out the lapels droop over, the coat front breaks, the sleeves wrinkle and pull out at the elbow, the trousers become baggy and lose their shape at the bottom, and the entire suit looks old and disreputable.

Our service keeps them clean and fresh, keeps them shaped right and fitting perfectly until they wear out. It's not only an aid to good dressing—but a real economy, as well.

Take advantage of it frequently.

WILL HOLD SACRED SERVICE.

"Good Friday" sacred in commemoration of the crucifixion of Christ will be observed in Jacksonville in a manner befitting the solemn importance of the anniversary. The services which have for years been customary on this day in the Church of Our Savior and in Trinity Episcopal church will be observed. A number of Protestant churches will unite in a service which will be held at Centenary beginning at 12 and closing at 3 o'clock.

The Seven Sayings From the Cross, will be the general theme and different pastors will speak. The first word will be "The Mercy of the Cross" and the seventh word, "The Peace of the Cross." Believers in the Christian faith, whether they be church members or not will find the service as planned at Centenary, one of inspiration and of deep spiritual significance. There is something too, which appeals to the "outsider" from the very fact that the ministers of the several denominations are uniting for this deeply religious service.

THE SPRINGTIME CLEANING.

Days of spring house cleaning used to be termed "the melancholy days, the saddest of the year," but along with hardwood floors and various aids for the housewife, housecleaning time has lost much of its horror and worry. When it comes to city house cleaning, the movement which has spread abroad so rapidly in the land that whole states have felt the influence, has changed the spring cleaning time into a sort of holiday.

The time was when a holiday meant a day of pleasure spent in idleness, but the more modern way is to enjoy the time at work. Week after next has been designated as clean-up week for Jacksonville and following the proclamation of Mayor Davis various organizations have joined in the movement and the indications are that when the evening of April 25th is reached there will not be an uncleanly street or yard in Jacksonville. It's a good movement this, one in which everybody can join with hearty good will, for the knowledge that the benefits will be large and that the whole city can enjoy them.

Senator Cummins in his speech before the Hamilton club in Chicago last night referred to the two great errors of the last Republican national convention as the refusal to make plans for the choosing of state delegates by primary systems and the correction of the unjust representation of the southern states. It must be gratifying to the Iowa senator to know that the Republican national committee has just taken action to correct these very evils. Senator Cummins' views, pointing to deliberate and unjust discriminations in the Democratic tariff measure will meet with some hearty approval among the farmers and stockmen of central Illinois.

A public school system can be successfully operated either under the general law or a special charter if officials fitted for the task are elected. In other words, good school government like good municipal government is a matter of men rather than laws.

Two Divorce Suits Filed.

Mrs. Pearl Irene Brown by her attorney T. F. Smith filed suit for divorce Thursday from William C. Brown on grounds of desertion. Mrs. Brown, who was formerly Pearl Irene Crews, asserts her husband left her about Aug. 25, 1910, and that his present whereabouts are unknown. The case will come up for hearing at the May term of the circuit court.

By her attorneys, Worthington, Reeve & Green, Bertha Collard Thursday filed suit for divorce against Jesse Collard. She alleges that she was married to Collard in Sullivan, Ill., Jan. 20, 1909, and that since Sept. 3, of that year, Collard has refused to support and live with her. Divorce is asked on ground of desertion. The case will come up for hearing at the May term of the Morgan county circuit court.

IF HEADACHY, DIZZY, BILIOUS,—“CASCARETS”

Your Liver is Full of Bile; Bowels Clogged, Stomach Sour, Tongue Coated, Breath Bad. Get a 10-cent box now.

You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and illtempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember the most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.—Adv.

LOVERS

By WALT MASON.

When you see a youth and maiden through a flood of moonlight wadin' as they vow a love eternal, how with them we sympathize! And we wish them countless blessings, with no end to their caressings, hoping they may travel under blooming and cloudless skies. Love is for the young and they'll always find us booming wedding rings

and orange blossoms, and the shoe of shoes and rice; every youth should haste and marry, he should never halt or tarry, he should gather in a damsel on the day he has the price. Oh, the whole world loves the lovers (as the blushing maid discovers), and the universe is hoping they may never know the dumps; but when patriarch and widdy get to acting gay and giddy, then the cold world merely sniggers and refers to them as chumps. Do your loving in your June time, in your mad and mellow moon time, in the winter of existence brings the shadow and the cold, for there's naught on earth that's sadder than to see an ancient gadder totting round a shelf-worn widow, courting like a ten-year-old!

PRINCIPAL STOCK MOVEMENTS ARE AMONG THE INDUSTRIALS

Market as a Whole is Uneven With
a Heavy Undertone—Foreign Sell-
ing Starts Market Downward.

New York, April 9.—The principal
movements in the stock market to-
day were among the industrials and
weaker railroad shares a number of
which declined sharply. The market
as a whole was uneven with a heavy
undertone. Sentiment was bearish
and the inclination of professional
traders to take the short side ulti-
mately brought the list to a lower
level despite occasional rallies. Pres-
sure converged on steel, in which
a large proportion of the day's busi-
ness was transacted. This stock was
thrown over in lots of 1,000 to 2,500
shares.

Foreign selling started the market
downward. Europe sold Canadian
Pacific, Steel and Kansas and Texas
Canadian Pacific sagged to 198 1/2 the

Oil shares weakened in sympathy
with the decline on the curb of stocks
in the standard oil group.

AUTO RUNS DOWN AND KILLS BICYCLE RIDER

Bystanders Claim Car Was Being
Driven on Left Side of Street.

Waterloo, Iowa, April 8.—Fred
Fairbanks died at a local hos-
pital tonight from injuries received
this afternoon when an automo-
bile driven by Howard A. Miller, a
wholesale coal dealer, crashed into
him, causing a fracture of the skull
and injuring his left leg. Fair-
banks was riding a bicycle and met
Miller at a corner. Bystanders
claim Miller was driving his car
on the left side of the street. Fair-
banks leaves a wife and five small
children. He was employed by the
Bryant Asphalt company and was 37
years of age.

JEWELERS CHOOSE ATLANTIC CITY

St. Louis, April 8.—Atlantic
City, N. J., was chosen for the 1915
convention of the National Whole-
sale Jewelers' association which
closed its seventh annual session
here today. Louis Sickles of Phil-
adelphia was elected president. The
jewelers agreed to discontinue the
time guarantee on watch cases.

ALLEGED FLAW OUSTS DEMOCRATIC CANDIDATE.

Hartford, Conn., April 8.—Be-
cause of an alleged flaw in a voting
machine, Joseph H. Lawler, Demo-
crat, was declared elected mayor to-
night by the moderate of the city
meeting although on the face of the
returns of yesterday's election Mayor
Louis Cheney, Republican, was re-
turned to office by 64 votes.

BELIEF THAT WHEAT ESCAPES DAMAGE DISLUGS BULLS

Reports of Killing Frosts at Many
Places Are Chiefly Responsible for
Prices Bulging Until the Final
Hour.

Chicago, April 9.—Increasing be-
lief that wheat had escaped damage
from the freezing weather tended
today to dislodge bullish control of
the market.

After a decided advance prices
closed weak 1/2 c off to 3/4 c up com-
pared with last night. Other specu-
lative articles all showed a net de-
cline, corn 1/2 c; oats 1/2 c to 3/4 c
and provisions 1/2 c to 3/4 c.

Reports of killing frosts at many
places, especially in Kansas and Ok-
lahoma were chiefly responsible for
wheat prices bulging until the final
hour.

Corn tumbled late in the day in-
fluenced largely by disproof that Ar-
gentine shipments necessarily con-
tained weevil.

Oats weakened ahead of the other
cereals. Cheap cargoes obtainable
from Canada burdened the market.
More plentiful receipts of hogs at
Western points carried down pro-
visions. A rally which ensued was
overcome by the effects of the de-
clines in grain.

DOWN TO BRASS TACKS—COST

Cost is the final factor in most plumbing installations. Beauty of design, serviceability, sanitary security, all have potent influence in the purchasing of modern plumbing, but, after all "Can we afford it?" is the main question.

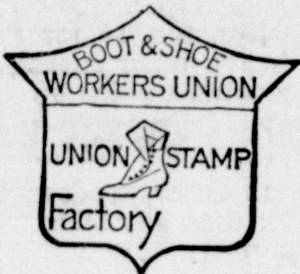

YOU CAN AFFORD MODERN PLUMBING as you will admit upon due consideration of our estimate on installing the fixtures you select after seeing the "Standard" catalogue of 1500 illustrations of plumbing fixtures. Suitable fixtures for the most modest as well as the most pretentious of homes.

FARMERS NOTICE

We Are Now Manufacturing Fertilizers for Soil

We have made a careful study of soil conditions and are now putting up an article which is considered the best on the market for INCREASED YIELD OF Corn or Oats. The same has the following analysis:

Bone phosphate 63.09 per cent.
Phosphoric acid 28.96 per cent.
Nitrogen 2.53 per cent.
Ammonia 3.07 per cent.

If you will carefully compare the analysis of our ROYAL BRAND BONE MEAL, you will find that the same is cheaper than the use of Rock Phosphate or any other fertilizers which are now on the market.

It only requires from 100 to 150 pounds of our BONE MEAL to an acre of soil, depending upon the condition of the soil. This will increase your yield of corn or oats from 10 to 20 bushels to the acre for the first year.

BROWN HURLER DESERTS TO KANSAS CITY FEDS

Federal League Adds Earl Hamilton To Its List of Players—Ban Johnson Will Fight Move.

St. Louis, Mo., April 9.—The first battle in an openly avowed war between organized baseball interests and the Federal league was staged here today and the younger league retired the victor with an American league pitcher added to its ranks and an American league catcher said to be on his way to join the Federals. Early this morning, Earl Hamilton, left-handed pitcher for the St. Louis Americans, departed for Kansas City in company with George Stovall, manager of the Kansas City Federal team which Hamilton announced he had joined. Tonight Clem Clemmons, catcher for the St. Louis Americans announced he would depart for Chicago on a late train but he would neither admit or deny published rumors that he had joined the Chicago Federal team. Rumors that at least half a dozen other St. Louis major league players had been considering Federal league offers or were solicited such offers were rife tonight but the players mentioned were reticent or even silent. The battle was precipitated

last night by the sudden arrival in this city of Stovall, C. C. Madison, attorney for the Kansas City Federals and a third man whose identity was not learned but who was said to represent the Chicago Federals.

Dated April 1, 1914.

last night by the sudden arrival in this city of Stovall, C. C. Madison, attorney for the Kansas City Federals and a third man whose identity was not learned but who was said to represent the Chicago Federals.

Hamilton signed a three year contract with the local Americans last year. Clemmons was a new man with the Americans. He was the star catcher on the University of Michigan team while Branch Rickey, now manager of the local Americans, was coach at that institution.

American League Ready for War
Chicago, April 9.—The American league is ready to go to war with the Federals over Earl Hamilton, pitcher of the St. Louis Americans who jumped to the Kansas City Federals today according to Ban Johnson, American league president.

The American league will stop Hamilton if it takes every dollar in the treasury," said Johnson tonight. "He had signed a most liberal three years contract with the Americans."

"Nothing will be left undone to check him in this violation of his contract. The incident will harm the good record of professional baseball."

Johnsoa left for Cincinnati, O., tonight after a conference with D. L. Reeves, secretary to John K. Tener, president of the National league. Reeves will leave tomorrow morning for St. Louis.

President Will Toss First Ball.

Washington, April 9.—President Wilson promised today to toss the first ball thrown on the American league park here this year when the Washington team plays its first game on the home grounds with the Boston Americans, Thursday April 23rd.

President Miner of the Washington club called at the white house today. He told Mr. Wilson that the first ball would be received on the throw by Ray Collins who would oppose Walter Johnson in the box. Incidentally Mr. Miner gave the president pass book No. 1 for the season.

Lewis Successfully Defends Title

Springfield, Ill., April 9.—Bart Lewis, champion amateur of the United States today successfully defended his title to maintain the DuPont trophy, at the Illinois Gun club grounds, when he defeated Harrison Kennicott of Chicago, the challenger and thirty other shooters. Lewis and Frank Fuller of Wisconsin tied with 92 out of one hundred targets. In the shoot-off, Lewis broke twenty-five straight. Fuller broke twenty. Lewis won the DuPont trophy at Atlantic City last summer.

WAS NOT DRIVING AT A RAID RATE.

In an article regarding an accident on North Main street, printed in Thursday morning's Journal, it was stated that W. W. Baldwin and A. S. Baldwin drove out of Cherry's Livery at a rapid rate, the horse running into a street car. Mr. W. W. Baldwin stated Thursday that as he had just started out of the barn his horse was not going fast and that furthermore the car had not stopped, but was coming toward the square. He said as soon as he saw the car he tried to back clear of the track, but finding that he did not have time, turned the horse south and the car struck the animal's head. Mr. Baldwin also said that Mr. Murray, motorman on the car, did all he could to stop the car and that the collision was purely accidental.

'TIZ' FIXES ACHING SWOLLEN SORE FEET

HOW "TIZ" DOES COMFORT
TIRED, SWEATY, CALLOUSED
FEET AND CORNS.

"Ah! Boys,
'TIZ' is the
thing!"

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "TIZ," and "TIZ" cures their feet right up. It keeps feet in perfect condition. "TIZ" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "TIZ." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

That Jar of Musterole On the Bath-Room Shelf

It's relieved pain for nearly every one in the family. When little Susie had the croup, when Johnny got his feet wet and caught cold, when father sprained his knee, when Granny's rheumatism bothered her—

That jar of MUSTEROLE was right there to give relief and comfort.

MUSTEROLE is a clean, white ointment, made with oil of mustard. It will not blister like a mustard plaster.

Quick relief for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds on the Chest (it prevents Pneumonia.) Nothing like MUSTEROLE for croupy children.

In 25c jars and 50c jars, and a special large hospital size for \$2.50. Accept no substitute.

If your druggist cannot supply you, send 25c or 50c to the MUSTEROLE Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

S. J. Buchanan, Lowellville, Ohio, says: "We have been using Musterole for two or three years past and find it very good. It is always in our medicine cupboard."

PROTECT THE HEART FROM RHEUMATISM

RHEUMA Purifies the Blood and Throws off Complicating Diseases.

Weakening of the blood tissues by continued attacks of Rheumatism affects the heart and produces complications which result fatally. RHEUMA puts the blood in condition to ward off other diseases and eradicates Rheumatic conditions from the whole system. Recommended for all forms of Rheumatism, 50 cents at your druggists. This letter will convince you of its great value.

"I was so crippled with Sclerotic Rheumatism I could not walk. Doctors could do nothing for me. After taking three bottles of RHEUMA, the Rheumatism had entirely left me."

Take Soda for Acid Stomach or Indigestion—Try It

Indigestion, says a noted authority, is not caused by a lack of digestive juices, but by an excess of hydrochloric acid in the stomach which promotes food fermentation thus retarding digestion. Then our meals at any pharmacy and take one tablet anytime followed by a tumbler of water which immediately settles the stomach; absorbs the gases and sweetens the entire digestive system.

He states that men and women who can trace their disordered stomachs and indigestion to acidity should not hesitate to take this harmless antacid at any time, as it is simply a compound of Soda, Magnesia and Calcium Carbonate U. S. P.—Adv.

SOME RECOLLECTIONS OF THE GREAT REBELLION

(By Capt J. M. Swales.)

(Continued from April 5th.)

After battering away at Rocky Face for several days without success the 14th and 17th corps passed through Snake Creek gap, thus executing a flank movement toward the town of Resaca, which compelled Johnston to evacuate his strong position at Rocky Face and Dalton. Sherman had ordered Gen. McPherson, in command of the Army of the Tennessee, to hasten through the gap, secure the place and hold it, but for some reason, instead of obeying the order, McPherson hesitated and fell back, thus giving the enemy a chance to get possession of the town and behind the strong works which had been previously erected in anticipation of the very move made by McPherson, and which so utterly failed. As a result of this mistake the works had to be stormed and before they were captured a rip roaring battle was fought and many thousands of lives, including both armies, were snuffed out in the fire and smoke of battle. Our regiment lost quite a number killed and wounded, including our adjutant, as fine and brave a soldier as ever donned the blue or carried a sword in the defense of the flag. Of course, we won the battle, for that was what we were there for. This was about the middle of May and the weather was extremely hot and the excitement and strenuousness of the engagement raised the mercury to about 150 in the shade. I am only guessing at that, as we didn't have a thermometer and if we had we were too busy looking after No. 1 to take the trouble of looking at the thing. After being thrashed very neatly and thoroughly the grey legions retreated to New Hope Church and Dallas. In the meantime the second division of the 14th corps was detached from the main army to capture Rome, some 30 miles away. Replying to Gen. Sherman as to whether the force sufficient to take the place, Gen. Davis, our commander, replied: "Yes, we can go through 'em like hot soup through a tin horn." And we did. Anticipating a movement in that direction the enemy burned the bridge across the Etowah river. But we didn't mind a little thing like that, and when the line of battle was formed, and after a few volleys were exchanged with the Johnnies, the boys charged across the river, it being then at a very low stage, and captured the enemy, bag and baggage. Rome, at this stage of the game, was an important place, as there were several foundries and arsenals and other buildings of importance which were of use to the confederacy. But when we got through with it there was nothing of value to speak of. Among other public buildings that attracted our attention was one in which they printed confederate money. It was printed in great sheets after the manner Uncle Sam prints his postage stamps. We didn't wait for the cashier to hand the stuff out to us—just helped ourselves till we got all we needed in our business. I think I must have had at least a hundred thousand dollars, more or less, of the stuff. Easy money! And the way we soaked the natives with it I am almost ashamed to tell. Our signatures to the unsigned bills went all right and we had plenty to eat as long as the money lasted and as long as we could find Georgia Goober Eaters who didn't know enough to come in out of the rain, and take it from me there were several of them who didn't know our signatures from that of the confederate secretary of the treasury. There were bills of different denomination—from one up to one hundred. As we were "rich" we cared little about the high cost of living or the cost of high living. It was all the same to us. Hand a Goober Eater a hundred dollar bill for a corn pone and tell him to keep the change. First thing we knew we almost had 'em loving us for our generosity and hospitality. We remained in the captured city a few days and were finally ordered to join the main column, but before we left we applied the torch freely to all public buildings and so, for once, we made "Rome howl." Private property was respected as well as the women and children, and very old men, who were intensely "loyal" to the old flag. But it's a sure thing that if they had been younger they would have been found in the ranks of Johnston's army fighting for the "Bonnie blue flag with but a single stab."

The slaves were used for the purpose of building forts and breastworks and when Johnston evacuated one line there was always another awaiting him, and if we wanted them we had to go and dig them out with our bayonets, which, assure you, was anything but pleasant, and always resulted in someone getting hurt. We joined the main column at Ackworth and from there on to Dallas and New Hope Church, where there was some fierce fighting at both places. At the latter place the 101st regiment got badly handled and lost several men, among them the gallant color bearer, Alick Crouse, who fell dead with a minie ball through his brain, but the colors never touched the ground. Tom Crouse, a cousin of the dead boy, grabbed the staff and carried the old banner to victory in that battle and many others during that wonderful campaign, till the fall of Atlanta and in the march to the sea, through the Carolinas, on to Washington, when it fluttered in life in the grand review, May 24, 1865. In every battle in which the regiment took part it acquitted itself most gallantly, and the rank and file of the old Morgan county regiment have reason to feel proud of the record they made. It is not too much to say that no regiment from grand old Illinois did better service than this organization. The death of the color bearer was more than a tragedy. The father of the boy

was a rank copperhead, when the son enlisted the father told him if he was determined to go, he might, but hoped he would be killed in the first battle. New Hope Church was not the first battle in which the regiment was engaged, but the old man got his wish finally, and all his remaining years were filled with remorse, sorrowing for the loyal son whose life was given for a cause which displeased a disloyal father. The boy and I lived on adjoining farms and were intimate friends in ante-bellum days and continued so even up to the time his loyal young soul took its flight to fame's eternal camping ground and his successor as color bearer was of the same blood, and no better or braver soldier ever stepped to the music of the Union than Tom Crouse. He was a long time resident of the Murrayville precinct and was well known by nearly all the veterans of Morgan county and others. He, too, has joined the silent phalanx beyond the dark river, and is with the immortals who stood for the flag while the nation's life was in dire peril in the long ago.

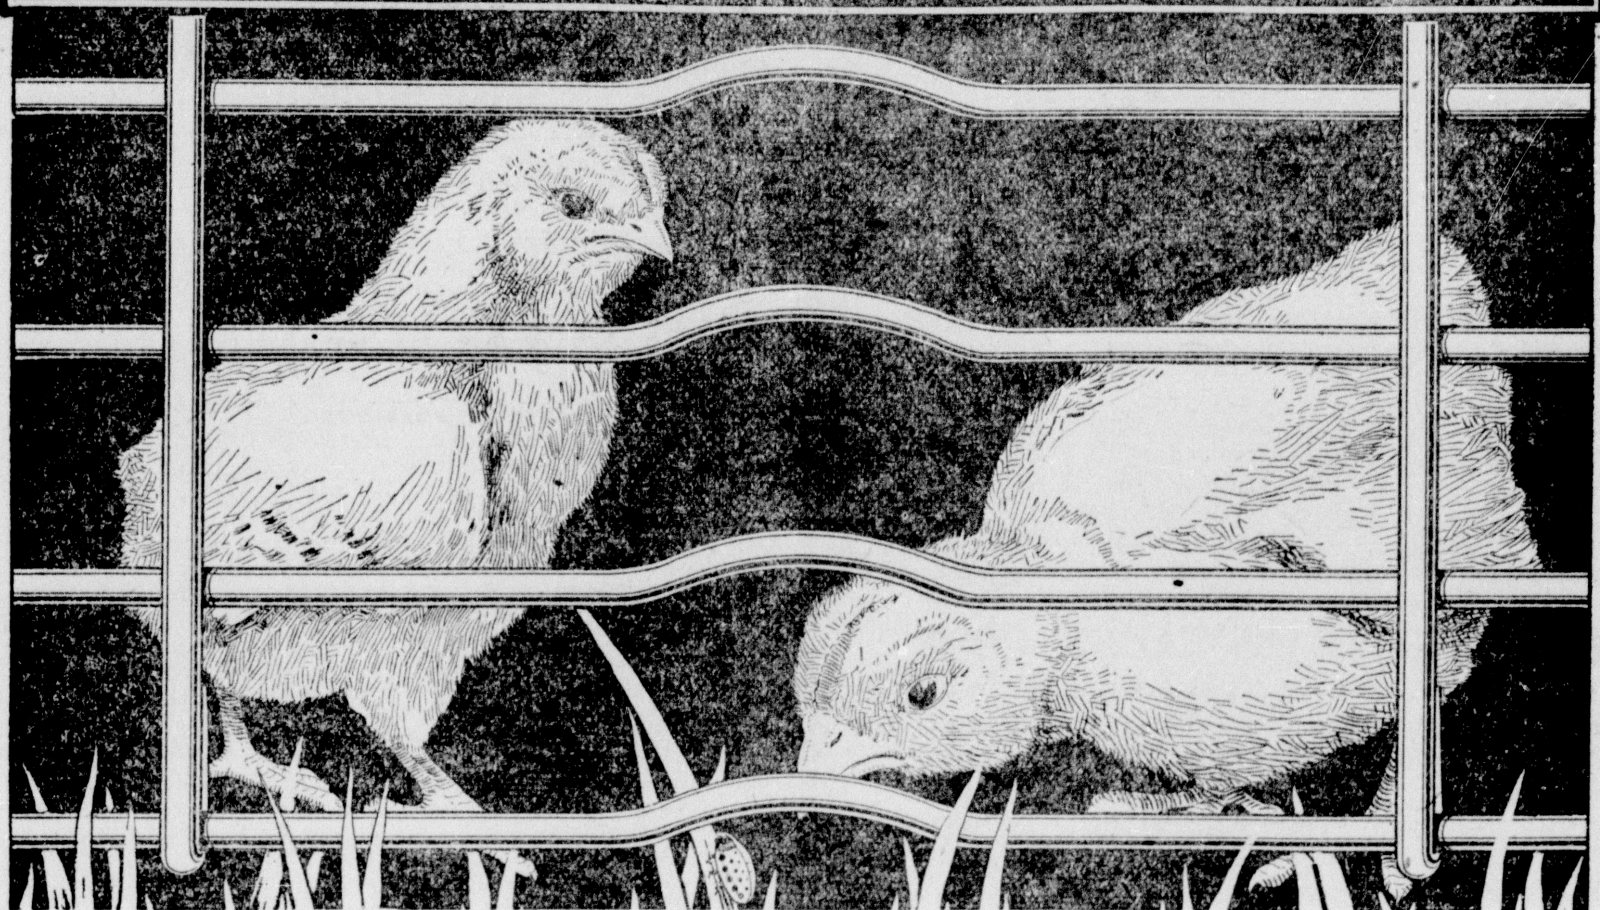

New Hope Church and the affair at Dallas were practically the same. Before we struck the latter place my company was deployed as skirmishers and we drove the enemy right through and beyond the town, the firing was pretty brisk between the lines of blue and gray, and thinking discretion the better part of valor, several of us took temporary refuge in a two story building in the center of the public square and were using the windows as port holes. We didn't use them long as a grey battery sent a few well directed shots right through the walls, and Lord, you ought to have heard the crash of falling walls and seen the dust and bricks fly! And then we ran because we couldn't fly back to the line of battle which was advancing. We learned afterwards that the perforated building was the county court house which the grey battery was shelling with so much uncton and uncomfortable precision. There were times when we stood not upon the order of our going but went at once and with a promptness that astonished not only the natives, but even ourselves, and this little affair at Dallas was one of them. It was a reminder of what General John A. Logan said about a Hibernian in his regiment at Fort Donelson who was going to the rear somewhat faster than a walk: "Hi, there!" said the general, "what in the blankety blank are you running for?" The Hibernian stopped long enough to salute, and replied "Be Jasus, general, I am running because I can't fly." There were times when I felt like I could kick a rabbit and tell him to get out of the way and let somebody run who could sprint artistically. I felt just that way when my battery turned loose on us at Dallas. And I was not the only one on that occasion who could have made a rabbit ashamed of his running abilities. But however, much a fellow might feel like running, except in rare cases and when it was absolutely necessary, there was something—pride, honor, call it what you will, that kept one from it in the face of danger. There could be no greater disgrace in the army than showing the "white feather" when facing a long line of glittering steel in the hands of a sturdy foe who might just be aching to perforate the epidermis of a live Yankee.

So far in the Atlantic campaign we had been eminently successful in flanking and driving the Johnnies out of their forts and from behind their breastworks. Resaca, Dallas and New Hope Church were all victories fairly won by the blue army, but we were only just on the edge of the campaign. We were so used to driving the enemy that it was becoming monotonous and we began to wonder whether there was any actual fighting in them. Having received a thorough trouncing Johnston leisurely retired from New Hope Church and Dallas to Kennesaw mountain. This grim monarch of the Georgia plains can be seen by the naked eye 25 or 30 miles away. It is hardly as high as aacker's mountain but what it lacked in height it made up in length and invulnerability. On the crest of this natural fortress Johnston took his stand, planted his colors and waited for the army in blue to come on and we came—to our sorrow—for here was where we were to meet our first bloody disastrous repulse. Johnston from the mountain top could see every move made by the blue army in the valley below. For several days we were subjected to as terrific an artillery fire as was ever rained on troops. A long at first there was a tendency to overshoot and the shells shrieked overhead and exploded far in the rear of the union lines. But the gunners soon got the range and made it hot for us. Breastworks were of little avail and practically useless against shells exploding overhead. Before they got the range we were careless and indifferent and lay in the open under whatever shade trees that might be closest for the weather was frightfully hot. On one occasion Jim Walker and myself were standing talking, perhaps ten feet apart when as quick as a bolt of lightning an enormous shell buried itself under the roof of a large tree, not ten feet away. For some reason it failed to explode but the frightful impact made a hole large enough in which the bury a horse. Jim had the presence of mind to throw himself flat on the earth. I was scared too stiff to move and stood as if paralyzed. He jumped up and brushed the dirt off his clothes and laughed loud enough to be heard from the top of Kennesaw. He said to me: "You d—d fool why didn't you lie down

"PITTSBURGH PERFECT" CHICKEN AND RABBIT FENCE

The Closest Meshed Fence of its kind in the World

STOP THE LOSSES

in the poultry and rabbit end of your business, by erecting the new "Pittsburgh Perfect" Chicken and Rabbit Fence. See how impossible it is for the littles chicks to get through. They are always where you want them—and safe. For the rigid fence fabric is so stiff and strong that no animals can break through, not even large stock.

And rabbits! This is the only sensible and effective fence ever produced for keeping rabbits in, or out. Stretch it well, close to the ground—and there you have them! Put up this fence, and you'll stop that big, destructive loss in your orchard, garden, etc.

"Pittsburgh Perfect" Chicken and Rabbit Fence costs you less per unit of satisfaction afforded than any other fence made for similar purposes. Special—rust resisting Open Hearth wire is used—No. 13 for top and bottom wires, No. 14 for stays and strands—further rust-proofed with a heavy outer coating of pure zinc galvanizing. The wires at every contact point are

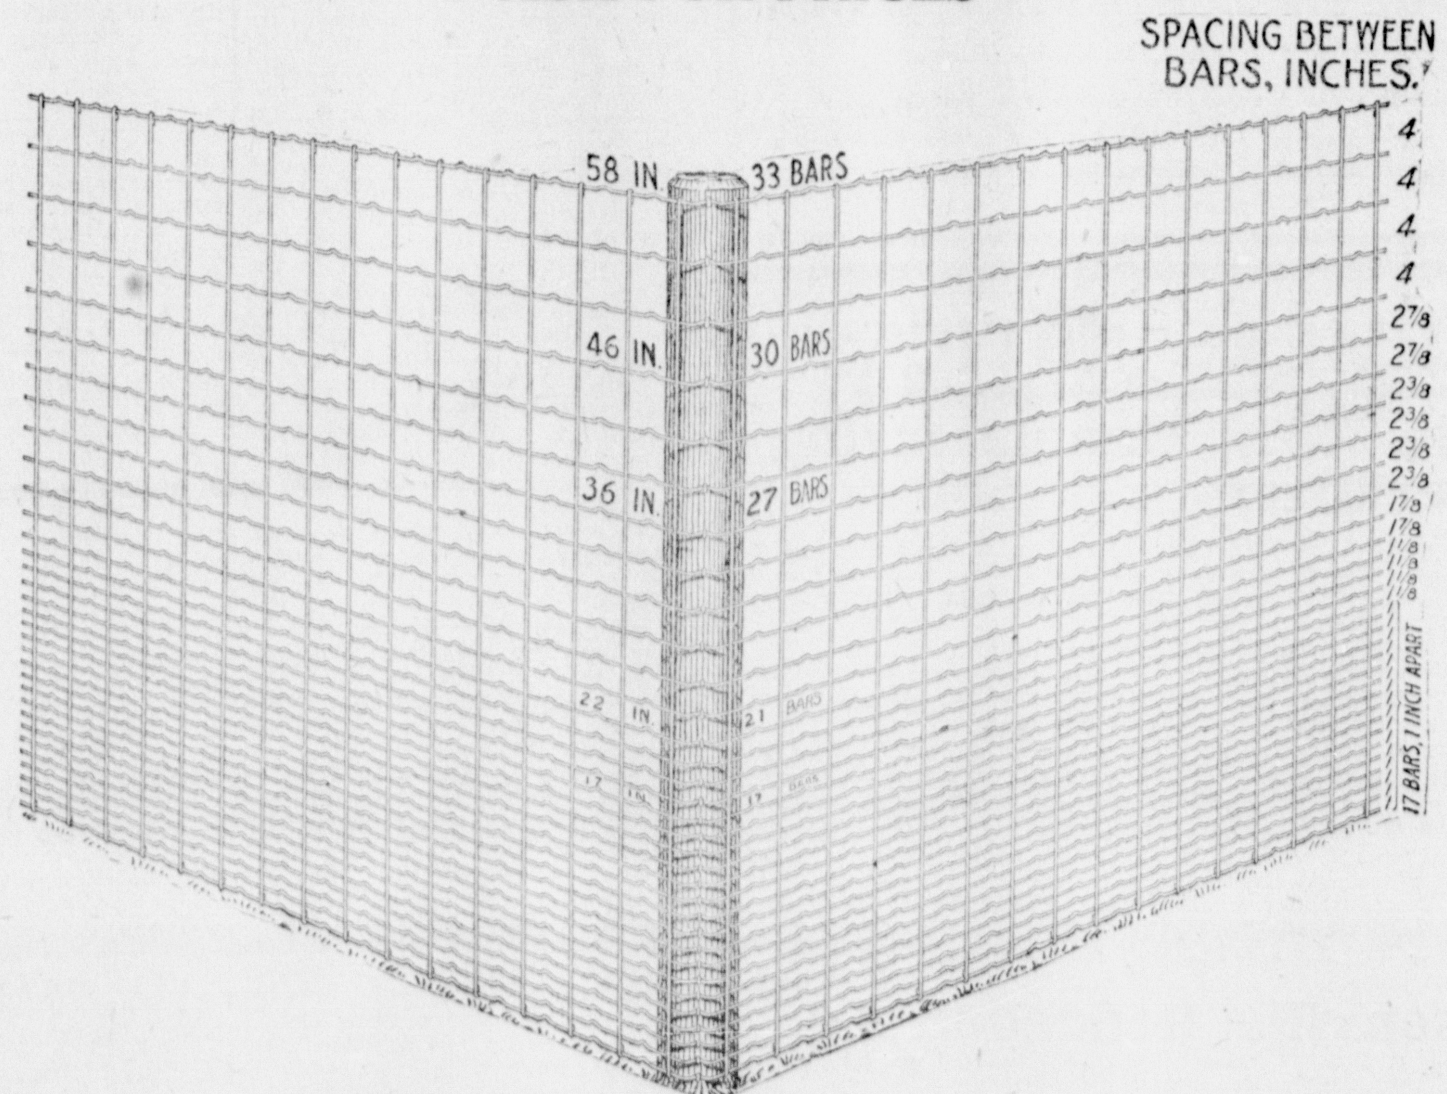

ELECTRICALLY WELDED

making a one-piece fabric that goes up easier, stands up better, is stronger and many times more durable than any other. For real value, genuine results, and true economy, "Pittsburgh Perfect" Chicken and Rabbit Fence is the only fence worth your money to buy.

Sold in rolls containing 150 or 300 lineal or running feet, in 5 heights, with stay wires 6 or 4 inches apart.

Are Your Glasses Becoming?

You don't want awkward "all eyeglasses" looking glasses.

We have made a study of facial characteristics, and select the size, style and shape of eyeglasses most becoming to the face of the wearer. There is a "knack and know how" about proper eyeglass fitting and adjusting, that we have long ago discovered.

With the glasses we make, you look well from either side.

WOMAN REFUSES OPERATION

Tells How She Was Saved by Taking Lydia E. Pinkham's Vegetable Compound.

Logansport, Ind.—"My baby was over a year old and I bloated till I was a burden to myself. I suffered from female trouble so I could not stand on my feet and I felt like millions of needles were pricking me all over. At last my doctor told me that all that would save me was an operation, but this I refused. I told my husband to get me a bottle of Lydia E. Pinkham's Vegetable Compound and I would try it before I would submit to any operation. He did so and I improved right along. I am now doing all my work and feeling fine.

"I hope other suffering women will try your Compound. I will recommend it to all I know."—Mrs. DANIEL D. E. DAVIS, 110 Franklin St., Logansport, Ind.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

FARMERS INSTITUTE RECOMMENDS VARIOUS BOOKS FOR STUDY

Spirit of Inquiry in Agricultural Lines Has Prompted Suggestive Readings—Are Applicable to Illinois Conditions.

At the Annual meeting of the Board of Directors of the Illinois Farmers' Institute, the committee on agricultural books reported, recommending that a few more books be added to the list of those already approved by the committee.

The spirit of inquiry along all agricultural lines is so active and the flood of farm literature that is being published in consequence is so great that in response to the demand for information as to that which is reliable, the committee examines all new books on agriculture and finds many that are of doubtful and indifferent character, some positively bad, from a scientific standpoint, while others are true, scientific, easily understood, and are applicable to Illinois conditions.

Books Recommended.
The list of books recommended, and their authors follow:

"Adventures in Commitment"—David Grayson.

"Bacteria in Relation to Country Life"—Lipman.

"Beginnings in Animal Husbandry"—Plumb.

A LETTER FROM CADMUS.

Under our special charter the board of education has the powers and duties of township trustees, so far as the government of the school district of Jacksonville is concerned. The special charter also provides that members of the board of education shall be elected at the time of the city election. Thus one annual election serves all three purposes.

Should we go under the general school law, there just be held three separate and distinct elections. Should the proposition carry, there must be held three elections instead of one as follows: (1) On Saturday, April 19, 1915, an election for township trustee. The trustees are three in number and appoint the township treasurer who handles all the school funds of the township. This election is generally a red hot one in those townships where there are cities under the general law because of the banks fighting for the deposits of school funds.

(2) On Saturday, April 17, 1915, Jacksonville will have its election to elect nine members and a president of a board of education under the general school law. Perhaps this will not be some election, also.

(3) On Tuesday, April 20, 1915, will be held the election for mayor and four commissioners to govern the municipality of Jacksonville. Some election also.

Three red hot elections within 10 days with accompanying expenses, discords and rows, where we now have but one. I do not believe that the good citizens want such conditions.

SOME RECOLLECTIONS OF THE GREAT REBELLION

(Continued From Page Ten)

as I did?" My only answer was to stare at him as if under a hypnotic spell, which no doubt I was for a few seconds. Walker was one of the coolest, bravest men in the regiment and was never found wanting. He answered Lincoln's first call for volunteers and re-enlisted for three years. His term of service expired on the day of the battle of Jonesboro, the contest which caused the evacuation of Atlanta. So you see he was faithful to the last hour of his services and came home with a record of which any man might be proud. Many years ago, he crossed the river and is now with the silent majority, gone, but not forgotten by those who stood with him in the days that tried men's souls.

The enemy on top of Kenesaw continued to annoy us with their artillery night and day while their sharpshooters, posted behind trees and rocks on the mountain side, took great pleasure in picking off a federal soldier whenever an opportunity offered and there was good picking and plenty of opportunities. Very naturally the boys became very restless under such circumstances and wanted a change of program and they got it. For several days Sherman had been arranging for a general assault all along the line. The day and date for the supreme struggle was June 27, 1864, and the hour for the forward movement was 9 a. m. At the sound of the single gun from the center of the blue line fully 100,000 men were to move against this mighty mountain either in the front line or in close supporting distance. The men were under light marching orders and in excellent fighting trim. Their knapsacks were left in the rear under guard, thousands of which would be of no further use to the owners, for they were to meet death in the red temple which was to follow the boom of the signal gun. Promptly on time the lanyard was pulled. The long lines of blue and steel moved while the crash of 250 guns from the blue batteries shook the earth and rent the sky and when the guns on the mountain answered in return, there was a commotion as if the earth and sky had smashed together while the charging columns were rushing into a vortex of red ruin. Our brigade was close up supporting Dan McCook's third brigade of the second division of the Fourteenth corps. It was a hand to hand contest with those in our immediate front and blood flowed down into the trenches we were in till they were slippery with the crimson tide from the thousands who were being slaughtered by the grey army behind unpregnable works higher up.

In that awful carnival of slaughter the smoke of powder we saw Dan McCook grasp the colors of the 52nd Ohio and scale the fort where he wanted them for an instant—only a brief, fatal instant—when he fell outside the works mortally wounded. Col. Harmon of the 125th Illinois succeeded him in command of the brigade and inside of ten minutes his life went out in the fire and smoke of that awful slaughter. Col. Dilworthy of the 85th Illinois then took command and he was wounded and was succeeded by Lieut. Col. Biggs of the 125th Illinois. Three brigade commanders in as many hours were killed or disabled by wounds in that awful tempest of death on only a part of the line on that fatal June day. The loss there was over 3,000 in less than 30 minutes. All this because Sherman said he wanted the people of the North to know that his army could fight. He afterwards forced Johnston out and away from his strong position by a flank movement which out to have been made in the first place and thus have saved thousands of lives.

In this connection it might not be inappropos to say that the 47th general assembly appropriated \$20,000 to build a monument at Kenesaw to the memory of the Illinois soldiers who perished in that memorable conflict—more especially those of Col. Dan McCook's brigade which was composed of the 85th, 86th and 125th Illinois, 52nd Ohio and 22nd Indiana regiments. The monument has been completed and the commission will doubtless arrange for its dedication on the date of the battle of Kenesaw Mountain, June 27, 1864—fifty years after.

Retreating from Kenesaw, Johnston moved in the direction of Atlanta, some 25 miles south. Before his army got there, however, there was some brisk fighting along the Chattahoochee river where a heroic effort was made to frustrate our crossing. On the 20th of July a hot engagement was fought at Peach Tree Creek, just a mile or so north of Atlanta. Major Wilson of our regiment, lost an arm and several of the regiment were killed and wounded in that engagement.

On the 17th of July, President Davis issued an order from Richmond relieving Gen. Joseph E. Johnston from the command of the army of Tennessee and appointing in his stead Gen. John B. Hood, claiming as a reason for his action that he wanted a fighter instead of an expert in the art of retreating. This seemed to please Sherman and his corps commanders for they knew Hood was a fighter all right and also knew that he would come out of his works and fight in the open, which also suited them to be long before Hood would batter his army to pieces in a very short time. Up to the time Hood assumed command there had been more or less desultory fighting during the siege of Atlanta but nothing that could be called the real article. Much was expected of the new Confederate leader from the Richmond authorities and much really eventuated in a very few days. On the night of the 21st of July there was intense activity inside the rebel lines and it was

WHO IS YOUR TAILOR?

Every man in America has a tailor. The man who wears a \$10 suit, as well as the man who pays \$100. The important question is, "Does your tailor know you?" Is he capable of designing a suit for you individually? Can he put your own personality into your garments? Build it so it will express you; look like you; actually be you; or does he make the same suit for everybody?

Do you care how you appear to other people? Does it matter to you if your coat bunches on the shoulders, creeps up on your neck when you sit, wrinkles in the back or sets away from the collar? Do your trousers draw? Are they too wide or too narrow in the thighs and leg to suit your build? All these faults are not necessary, and are overcome when your garment is designed and tailored by one who knows you and studies your individual requirements. It costs no more to own a tailored-to-measure suit which will have none of these objectionable things. You can get harmony in color and fabric, style, snap, fashion and design, and comfort in the fit and wear of every suit we make for you.

You can't get a bad job from us. We won't let you have it.

thought they were preparing to evacuate. Sherman and his subordinates were all at sea as to movements of Hood but were on the alert and ready for any emergency. Early on the morning of the 22nd there was a rather hurried conversation between Sherman and McPherson at the Howard house which resulted in McPherson taking an orderly and making a reconnaissance of the enemy's position. He had not gone far when he ran into a nest of the men in grey which proved to be the advance of Hood's entire army. McPherson took in the situation at a glance, wheeled his horse and started back but instantly he was ridden with rebel lead and fell dead from his saddle. This was a great calamity, for McPherson was not only commander of the Army of the Tennessee, but was a superb soldier and thoroughly competent withal, and one of the most popular officers in the Military Division of the Mississippi, which included the 4th, 14th, 15th, 17th and 20th and 23rd corps. The death of McPherson was not only a great loss but created a panic on the extreme left of the line as Hood's veterans threw themselves with a cyclone fury into the fray and for several hours it was anybody's guess as to the outcome. Sherman on hearing of the death of McPherson dispatched an orderly to Logan to tell him to take command of the Army of the Tennessee, he being the ranking major general on the field, and at the time in command of the 15th corps. This was what the Black Eagle said to Sherman:

"Anticipating your order I have already assumed command of the Army of the Tennessee." Then turning to the troops he said in trumpet tones: "Remember the blood of your mummies, boys, and give 'em Hell." After which he rode up and down the lines with his shining blade flashing in the hot July sun urging the wavering troops who had been temporarily demoralized by the sudden onset of the day, grey battalions earlier in the day, his very presence on his splendid Black Jack, was an inspiration to the mighty host in blue. Horse and man seemed to be omnipresent, both of whom bore a charmed life in that memorable contest and when the stars shone on the gory field victory perched upon the banner of the glorious Black Eagle of Illinois. Men fought on that hot July day, as men seldom ever fought before on a bloody struggle. Right at that time the fame of the Black Eagle eclipsed that of the great flanker himself, for the victory of the battle of Atlanta was the crowning glory of the campaign which placed the name of Logan high upon the scroll of imperishable fame. Less than a week after Logan had immortalized himself he was superceded in command of the Department of the Tennessee by Major General O. O. Howard, formerly of the Army of the Potomac and who was a West Pointer. All of which created an intense feeling of bitterness throughout the army against Sherman for his manifest unfairness in the matter. It was the consensus

of opinion that if Logan could win a victory with a demoralized army he was surely competent to command it afterward. Logan was superceded not because he was incompetent, but simply because he was not a graduate of West Point. On more than one occasion that spirit of jealousy caused serious trouble. The intense feeling between the volunteer officers and those among the West Pointers was something fierce. From the time Logan was chosen colonel of the 31st Illinois infantry he had to contend with that disturbing element. It was an acknowledged fact then, as it is today, that John A. Logan was the greatest volunteer general that ever drew a sword in any cause or under any banner, and had been an "educated soldier", instead of a volunteer, he would have held the honors won instead of being supplanted by a West Pointer. But the saub administered by Sherman at that time did not detract one iota from the glorious record made by the Black Eagle of Illinois, whose fame is as enduring as the ages. Here is where the grandeur of his soldierly qualities comes in. He neither sulked in his tent nor resigned. He went back to his old 15th corps, and fought the war to a finish, and won the plaudits of a nation his valor helped to save. His only absence from the army was during the march to the sea when he came north at the request of President Lincoln to make a few political speeches in the interest of the "Union ticket" as against McClellan on the "peace at any price" platform. At the same time Gen. F. P. Blair, commander of the 17th corps, returned to the north in the interest of the "Union ticket." Both these generals were dubbed as "political generals" by General Sherman, but in his "memoirs" he forgot to state that it was at the request of Mr. Lincoln that they came north to participate in the political campaign of '64.

FEIBLE OLD PEOPLE

Are Told How To Regain Strength And Vigor.

As one grows old the waste of the system becomes more rapid than repair, the organs act more slowly and less effectively than in youth, the circulation is poor, the blood thin and digestion weak.

Vinol, our delicious cod liver and iron tonic without oil is the ideal strengthener and body-builder for old folks, for it contains the very elements needed to rebuild wasting tissues and replace weakness with strength. Vinol also fortifies the system against colds and thus prevents pneumonia.

Mrs. Mary Ivey of Columbus, Ga., says: "If people only knew the good Vinol does old people, I am sure you would be unable to supply the demand. I never took anything before that did me so much good as Vinol. It is the finest tonic and strength creator I ever used in my life."

If Vinol fails to build up the feeble, old people, and create strength we will return your money.—Lee P. Alicott, Druggist, Jacksonville, Ill.

ANNOUNCEMENTS.

I hereby announce myself a candidate for Assessor and Treasurer, subject to the Democratic primary, Sept. 9, 1914.

Thomas Irlam.

MORTUARY

Slaughter.

Miss Ada Helen Slaughter died Thursday morning at 9:30 o'clock at the family residence, 221 East College avenue, after a long illness. She was the daughter of Mr. and Mrs. Charles Slaughter and was born Sept. 3, 1887, near Murrayville. When a girl the family moved to Jacksonville and Miss Ada entered the public schools, going through the eighth grade. When she was 16 years of age she contracted typhoid fever and since that time had never been well.

During the intervening years she had undergone a number of operations with the hope that she might improve in health, but her condition gradually grew worse. Her last operation which was of a serious character, was Feb. 14 of this year, in Augustana hospital, Chicago. Two weeks ago she was brought to her home and it was all her strength could stand to make the journey. During all this time her condition has been very critical and the attending physician held out no hopes for her recovery.

During these fifteen years of suffering Miss Slaughter displayed a spirit of bravery and hope that has seldom been seen. No matter how long or intense her sufferings she complained but little and she met the many operations she had performed with soldier-like courage, always thinking that in some way she would gain her health and enjoy the things of this world with her many friends. Not until her last trip to Chicago did she feel her strength exhausted in her struggle for health.

Miss Slaughter joined the Central Christian church at an early age and was interested in its various departments. Especially did she find pleasure in her work with the Philathea class of the Sunday school and she was accounted one of its best workers. Miss Slaughter will be missed in the home and by her friends, who had learned to love her for her happy disposition, jovial manner and willingness to give what she could toward making others glad and contented. Although she had a great relief to her sufferings and she met the end with resignation and without fear.

Besides her parents she is survived by two sisters, Miss Elizabeth at home and Mrs. J. B. Spyskma of New York city. The funeral will be conducted from the family residence at 2:30 Saturday afternoon in charge of Rev. Clyde Darsie and interment will be made in Diamond Grove cemetery.

PRINCIPAL COLLINS HAS A BIRTHDAY.

Principal Charles E. Collins was twice agreeably surprised Wednesday, the occasion being his birthday. When the teachers assembled at the close of school to enjoy the grades, the principal was surprised to find that a table had been spread with all good things to eat in his honor. And still another surprise was in store for the principal when he returned to his boarding place and found that a special dinner had been provided for his honor and in the center of the table was a large cake containing his name and brilliantly lighted with candles. The cake was sent from Chicago by his wife. There was also a box of home made candy from his brother-in-law, Harry W. Vincent of Chicago.

W. A. EVANS TO BECOME AGENT FOR WABASH IN SPRINGFIELD

Will Be Advanced to Capital City After Four Years Service Here—W. A. Ballard Jr., to be Agent Here.

Announcement has just been made that W. A. Evans, local passenger agent for the Wabash R. R., will shortly become city passenger and ticket agent for the road in Springfield. He will be succeeded here by W. A. Ballard Jr., of Springfield, a young man who has been quite successful in his railroad work. The change will take place next week.

Mr. Evans has been for four years passenger and ticket agent for the Wabash here and during that time has managed the affairs of the office in a manner satisfactory to both the road and the public. Prior to coming to Jacksonville he was for twelve years assistant passenger and ticket agent in Springfield, so he is familiar with the work there. His return to Springfield as ticket and passenger agent is a deserved promotion. He will succeed H. P. Garner who has been appointed to a position in the road's passenger department in St. Louis. Both Mr. and Mrs. Evans will be greatly missed here by their many Jacksonville friends.

Pick out your Easter hat or Spring coat today; it will be delivered to you promptly.

MAKES SUGGESTIONS TO BOY CORN CLUB MEMBERS.

John A. Groves Tells of Methods Which He Has Observed Bring Successful Results.

John A. Groves, who has had a great deal of experience in corn planting and raising, is very much interested in the work of the Morgan county Boys' corn club and in the general movement in this work which has spread over the country. Mr. Groves makes the following suggestions.

"Choose an acre which has been in corn for one year, following blue grass. Let it be black land, well drained and plow the stalks under after they have been cut. Disc the ground well until the process has reached down three or four inches. This will also kill all the weeds. The seed bed should be solid but not hard. The last time over lap with the disc.

"Plant between May 1st and 10th and have the land harrowed in front of the plow. As soon as the corn is planted, harrow again and if the ground is cloddy, roll it. As soon as you can see corn growing harrow again. If it is possible, harrow the ground once more a little later on. In cultivating six shovels, three on a side can be used to advantage. If there are more than three stalks growing in a hill, pull them out. The hills should be 3 or 3½ feet apart. Plow close and not too deep. For the next plowing take of the shields if possible. On the third plowing lay by a little of the corn and for the fourth plowing cross the field in the opposite direction. Then if there are signs of weeds hill the corn up with shovels. If the ground is wet a single plow can be used to advantage. With the matter of seed preparation care should be taken out only to select grains that will grow, but the hardiest of them all."

MORGAN COUNTY MEDICAL SOCIETY RECOMMENDS MODEL ORDINANCE

Milk Ordinance Endorsed by Physicians in Session Thursday at Medical Library—Embodies Results of Latest Sanitary Science.

A model milk ordinance for the city of Jacksonville was reported to the Morgan County Medical Society and endorsed by that body in their regular monthly meeting Thursday evening. The ordinance prescribes thorough cleanliness in all stages of production, provides for pasteurization by the "holding" method, makes provisions for official inspection and suggests penalties for all violations. The committee which prepared and reported the ordinance consisted of Dr. Josephine Milligan, Dr. Grace Dewey and Dr. Virginia Dinsmore.

Those present at the meeting Thursday evening were Doctors A. E. Foley, Edward Bowe, C. E. Cole, H. C. Woltman, F. A. Norris, Lowe, J. U. Day, J. M. Wolfe, T. O. Hardesty, George Stacy, Grace Dewey, Josephine Milligan, Virginia Dinsmore, Carl E. Black, J. F. Myers, A. J. Ogram and T. J. Pitner.

The ordinance follows:

Must Obtain License.

No person shall offer for sale in the city of Jacksonville, any milk or cream, without first obtaining from the Health Department, a license to sell milk and cream. License shall be issued to all persons making application therefor after registration and if inspection is satisfactory. License shall be renewed annually on the first day of July and shall give the name and address of the applicant.

Health and Cleanliness.

The cows must be kept healthy and clean. No milk shall be for sale from any cow, within fifteen days before, or five days after parturition, nor at any time from cows known to be tuberculous, nor from cows having any inflamed condition of the udders.

The udders must be washed in clean water and dried with clean cloths prior to milking and the milkers be required to wash their hands and to put on clean overalls before milking.

Stables.

Cow stables shall be well lighted, drained and ventilated. The floor must be made of impervious material, the walls white-washed. There must be not less than five hundred cubic feet of air space for each cow. No privy vault shall be in close proximity to the stable or milk-house. Every dairyman shall be required to keep his barnyard adjacent to his barn free from manure to a distance of at least seventy-five feet.

Care of Bottles and Utensils.

Milk bottles shall be used for no other purpose but for holding milk or cream. No bottles nor utensils of any sort used in the handling or production of milk or cream shall be used a second time until they have been sterilized with boiling water or steam. No milk or cream bottles or containers shall be opened or interfered with on the street or in the delivery wagon. Milk can only be sold in sealed containers.

Care of Milk.

A sanitary milk room must be maintained for bottling the milk. The room must have tight walls and floors of such construction as will allow easy and thorough cleansing and must be kept clean and free from flies. Said room to be used only for milk.

The milk when drawn from the cow must be immediately strained and cooled to at least sixty degrees F. and so maintained till in hands of the consumer.

Quality of Milk.

The minimum amount of butter fat shall be 2.25 per cent. No person shall offer for sale or sell milk or cream to which water or any foreign substance has been added. Skimmed milk can only be sold in containers plainly labelled skimmed milk. Dirt found in milk shall constitute an adulterant.

Pasteurization.

No milk or cream shall be sold as pasteurized milk or cream unless the method used in such pasteurization be in accord with the following standards as to temperature and exposure.

1. No less than 145 degrees F. for at least twenty minutes.

2. No less than 140 degrees F. for at least thirty minutes.

Contagious and Infectious Diseases.

Any person engaged in the production, sale or distribution of milk or cream in the city shall notify the health department immediately on the occurrence of any case or cases of contagious or infectious diseases either in himself or family, or among his employees or their immediate associates, and shall at the same time suspend the sale and distribution of milk and cream until authorized to resume the sale of the same by the health department. No vessel, or utensils handled by a person suffering from a contagious or infectious disease, or which is on the premises of a person in whose family or household there exists such a disease, shall be removed until it has been sterilized.

Inspection.

The inspection of the milk and dairies of the complete milk supply of the city shall be made by a trained inspector who uses the federal government score card; rating not to be less than a good grade. Said inspector to be appointed by the health warden. Inspections to be made at least once a month.

Violation of Ordinance.

Any person violating any part of the provisions of this ordinance shall be served with a written warning by the health warden if it be the first offense. Subsequent violation of any provisions of this ordinance shall be punished by a fine of not less than \$10 or more than \$100, or a revocation of the license.
